IPGC | **International Professional Geology Conference**

ZARAGOZA
5TH EDITION 2025

Zaragoza, November 5-7, 2025

FIFTH CIRCULAR

Dear colleagues,

We are pleased to announce that the abstract submission period for the International Professional Geology Conference (IPGC) is now open.

This is your opportunity to present and showcase your research, contributions, and advancements in geology at an event that brings together the top professionals in the field.

We are also proud to share that the Congress Technical Plan has been finalized. While minor adjustments may still occur, the general structure and scheduled activities reflect the high standards and quality that define the IPGC.

We would like to express our gratitude for the overwhelming response to the call for proposals for conferences, workshops, and other activities. Due to the exceptionally high volume of submissions, we have had to create a waiting list for some proposals. Thank you for your enthusiasm and commitment!

For those who wish to secure their spot in the majestic auditorium, we encourage you not to wait until the last minute: submit your abstract as soon as possible to ensure you don't miss this unique experience.

The Scientific Committee will contact all participants in the coming days to address any questions and share additional details about the technical program.

Important Reminder: The Abstract Submission is open until February 28, 2025.

For more information on deadlines, requirements, and topics of interest, please visit our official website or contact us directly.

Best regards,

The IPGC Organizing Committee

ABSTRACT SUBMISSION
